OUR NEW QUALITY RENTS WEBSITE HAS LAUNCHED

Report by Terri Rodina

"We are so pleased to announce that our official Quality Rents® website has launched. Check out our new website to see our many rental advantages. We offer the perfect rental to meet your job needs," said Mike Vislay, Vice President of Key Equipment and Quality Rents. "Whether it's an Elgin® street sweeper, a Vactor® sewer truck, a TruVac® excavator Quality Rents has something in stock to accommodate you. We rent portable Envirosight CCTV crawler/camera pipeline inspection systems for municipal sanitary or stormwater inspection. We also rent push cameras like KeyVision® for smaller pipeline plumbing inspection. If safety/communication headsets are needed, we rent SetCom® and Sonetics® brands."

WHY RENT A ROBOTIC MOWER?

Written by Terri Rodina

Mowing slopes and difficult landscapes can be inefficient, time-consuming, and dangerous. These American-made remote-operated slope mowers can be a replacement to using a ride-on mower or weed-wacker to help maintain slopes and hazardous terrains. Rent a RC Mowers remote control robotic slope mower from Quality Rents for a short or long term rental to see if this is the perfect mower for your needs.

EMPLOYEE SPOTLIGHT

Nicci Vislay is our Rental Manager at both our St. Louis and Kansas City Locations. She began her employment in October 2020 after relocating from Pennsylvania with her husband Mike, Vice President of Key Equipment & Quality Rents, and their 12 year old son. With over 15 years of managerial experience in operations and manufacturing procedures, she brings continued leadership, organization, and dedication to Quality Rents. Nicci is a welcomed addition to our team.
