KEY EQUIPMENT HAS TWO NEW ELGIN PELICANS

Report by Terri Rodina

Two new Elgin Pelicans were delivered to Key Equipment Supply Co.® at our St. Louis and Kansas City locations recently. These units have arrived in plenty of time to arm our customers with strong cleanup power this spring! Please call your Territory Manager, our STL Office at (800)325-4323 or our KC Office at (800)262-0149 for Sales or Rentals.

WHY RENT AN ELGIN SWEEPER?

Written by Terri Rodina

There are many reasons to rent an Elgin sweeper. First, buying a new sweeper can reduce your overall budget. Renting a machine can be a more affordable option. Maintenance can be an issue when owning a street sweeper, renting can help to alleviate maintenance worries. Finding storage for large equipment can be difficult, not a problem when you rent one. Rental is a good way to test drive an Elgin street sweeper to see which one works best for your needs. *“Quality Rents can work with your rental schedule, whether you need to rent a sweeper for a day, week, or a month. We have you covered,”* Mike Vislay, Vice President of Quality Rents.

EMPLOYEE SPOTLIGHT

Steve Hyink joined Key Equipment & Supply in 1976 in various capacities including marketing, inventory management, service, demonstration management, and sales management. In 1982, after graduating from Missouri State University, he became a full-time employee. In 1994, Steve became the President of Key Equipment operating in Illinois, Missouri, Kansas, and Oklahoma. In 2020, as President of Quality Rents, bringing more than 44 years of experience in the environmental equipment industry, Steve Hyink adds a solid foundation to Quality Rents.

Subsidiary of Federal Signal Corporation

The Elgin Pelican® Broom Sweeper meets the highest sweeper standards. It is a three-wheel mechanical sweeper with the following capabilities:

- Extremely maneuverable in congested situations
- Handles heavy compacted dirt and bulky debris up to 9" long easily
- Provides Single Lane Dumping
- Quiet operation due to isolation mounted-cab
- 360-degree visibility
- Easy access for service and maintenance
