## KEY EQUIPMENT HAS ADDED A 2021 VACTOR iMPACT TO ITS IN-STOCK INVENTORY

Report by Terri Rodina

We have acquired a 2021 Vactor® iMPACT™ at our Kansas City location. This sewer cleaner is smaller than other models yet a powerful machine operating in tight places. A more affordable option for small communities and contractors, the iMPACT can tackle big jobs at a lower purchase price. The iMPACT's a great choice for municipalities needing an emergency reserve vehicle. Contact your Territory Manager for more information.

## WHY RENT A KEYVISION® PUSH CAMERA?

Written by Terri Rodina

Key Equipment and Quality Rents have KeyVision push cameras available for sale or rent. There are many advantages to renting a KeyVision. Renting allows you to try out a push camera to see if it works for your job applications. If using a push camera is only for the short term, it cuts down on maintenance and storage costs. Renting a KeyVision is a great option for contractors to test out new technologies and see if this push camera is the right fit for your company. Please contact Quality Rents if you have questions regarding renting a KeyVision push camera.

### EMPLOYEE SPOTLIGHT

Mike Vislay joined the Key Equipment team in 2019 as Vice President of Key Equipment & Supply Co.® and Quality Rents®. Previously he worked for a general contractor that provided public and municipal services in the environmental industry. In 2004, Mike joined the Envirosight team. In 2014, he became the Director of Global Sales for Envirosight. Mike used his previous experience as Sales Director in the Sewer and Environmental Equipment Industry to get Quality Rents jump-started. Mike brings so much experience, knowledge, and leadership to Quality Rents. We are so excited to have him on our team.
